

ECHOES LAB

LAS VEGAS, NV

BIO

Echoes Lab is a Vegas-based electronic producer crafting experimental bass with psychedelic soundscapes and pixel art visuals. Sets unfold in measured arcs, pairing deep bass with analog grit and psychoacoustic detail. Drawing from cyberpunk, sci-fi, and trippy atmospheric worlds, each session is a portal into immersive sonic environments. The aim is to let every crowd feel like they stepped through a glitchy terminal into another dimension and left carrying a piece of it.
